Kip,

Apparently, the blue vessel was put on in Plaquemines Parish and operated for several days under the BP contract. It was then moved with the agreement of Frank Stuart to Jefferson Parish. In Jefferson Parish although Frank spoke with Brandon Mouriz of BCA on several occasions assuring him that the boat was registered on duty, it was never reported to DRC as needing to go on duty and was not listed in the official records of BP.

We purchased the vessel and financed it for BCA.

I have meet with them in order to come to a solution. We have agreed to pay them a \$10,000 settlement fee for their lost rent.

Request from Robert J. Isakson by Olympiane Smith

Sincerely,

Olympiane Smith
Executive Assistant to Mr. Robert J. Isakson
